Question and Answer Forum	All Participants Veronica Fallon-McNaught, NYSPFP
Next Steps	Veronica Fallon-McNaught, NYSPFP

NYSPFP Sepsis Initiative

- **Goal**
 - Help hospitals improve sepsis care processes and outcomes by supporting front line staff adherence to their sepsis protocols.
- **Approach**
 - Build on hospitals' existing sepsis improvement efforts
 - Provide education, tools, and one-on-one assistance
 - Address particularly challenging areas, including:
 - optimizing early identification
 - improving adherence to the three and six hour bundles
 - improving communications, care hand-offs and transfers
 - Support action planning strategies for improvement
