Progressive Mobility Initiative

Addressing Immobility Across the Hospital: Step 3
The Role of Nursing: Overcoming Barriers &
Engaging the Team

NYSPFP Collaboration with Johns Hopkins
University Medical Center

February 27, 2019

*A partnership of the Healthcare Association of New York State
and the Greater New York Hospital Association*

Agenda

Topic	Speaker
I. Welcome and Introduction	NYSPFP Staff
II. The Role of Nursing: Overcoming Barriers, and Engaging the Team	Michael Friedman, PT, MBA, Director, Rehabilitation Therapy Services Eleni Flanagan, RN-BC, Assistant Director, Johns Hopkins Department of Medical Nursing
III. Next Steps and Closing	NYSPFP Staff
V. Open Question and Answer Forum	All Participants

NYSPFP Progressive Mobility Initiative

- Purpose:
 - Promote adoption of progressive mobility programs hospital-wide
- Aim:
 - Accelerate improvement in a broad range of hospital-acquired conditions (HACs) and readmissions that are exacerbated by immobility and deconditioning.
- Target HACs:
 - CAUTI, Delirium, VAE, Falls, Pressure Injuries, Readmissions, VTE, Worker Injuries

Data

Topic	Primary Measure	Baseline Rate	Comparison Rate	Percent Improvement
CAUTI	CAUTI Rate Per 1,000 Catheter Days	1.31	0.89	31.64%
Delirium	Delirium Prevalence Rate	17.05% (n = 62)	18.58% (n = 43)	-8.99%
Falls	Falls with moderate or greater harm per 1,000 patient days	0.072	0.077	-6.28%
Pressure Injuries	Pressure injury prevalence rate ≥ Stage 2 per 100 patients	1.38	1.77	-27.98%
Readmissions	30-Day All Cause Readmission Rate	12.80%	12.63%	1.32%
Safe Patient Handling	Musculoskeletal injuries from patient handling activity per 100 direct care providers	1.44 (n = 39)	1.41 (n = 34)	2.05%
VAE	VAE Rate	4.16	3.52	15.28%
VTE	PSI-12 Post-op VTE	3.71	4.11	-10.61%
