Janet Cuddigan, PhD, RN, FAAN President, National Pressure Injury Advisory Panel (NPIAP) Board of Directors, Co-Chair of the International Guideline Governance Group Professor, University of Nebraska Medical Center College of Nursing
Q&A	Participants
NYSPFP Support and Next Steps	NYSPFP Staff

NYSPFP Pressure Injury Initiative

- Goal: To reduce the prevalence of pressure injuries by 20%
- Current State:
 - Pressure Injury HAC has increased in NYS
- Multifactorial contributing factors:
 - Conversion to ICD-10 in 2015
 - PI stage 2 and 3 definition changes in 2016
 - Progression or worsening of a PI is a new hospital-acquired PI
 - Wound misinterpretation, documentation deficiency, miscoding
 - Aging population and increasing chronic disease

Pressure Injuries

2019 Pressure Injury Webinar Series

- **July - New Insights in Prevention and Treatment Strategies**
 - PI progression assessment and treatment
 - Unit-specific considerations
 - Wound consultation
 - Newer dressing, bandages, and surface options
- **September - Best Practices for Prevention and Documentation**
 - Mitigating PI progression
 - Clinical documentation for reliable, consistent staging of PI
 - Bridging the gap between clinical staff and coding staff to reduce PI rates

2019 Pressure Injury Series Conclusion

- **Today – Overview of the 2019 International Practice Guidelines for the Prevention of Pressure Injuries**
 - Collaborative effort by the NPIAP and its global partners—the European Pressure Ulcer Advisory Panel and the Pan Pacific Pressure Injury Alliance
 - Involving more than 250 experts, 1,000 stakeholders, and 1,200 consumers
 - Over 3,500 articles were reviewed using a rigorous guideline methodology to develop best practice recommendations for PI prevention and treatment

NYSPFP Program Support and Next Steps

E-Learning: Preventing Pressure Injuries

- Located on the NYSPFP website
- Self-paced on demand learning
- Program Content:
 - Important roles for skin and risk assessment
 - How pressure injury forms – intensity and duration of pressure
 - Nursing interventions that reduce pressure injuries

RCIP for Pressure Injury

- Rapid Cycle Improvement Project (RCIP)
- Hospital specific project support with a full day on-site visit including:
 - Team opening meeting
 - Observation/Interviews/Data collection
 - Exit session
 - Detailed post report of findings including strengths, opportunities, and suggested tools and resource recommendations

Upcoming Webinar

- **NYSPFP Falls Webinar: Behavioral Health Fall Prevention and Injury Protection**
 - **Thursday, January 9, 2020**
11 a.m.-12 p.m.

Next Steps

- Contact your NYSPFP Project Manager
 - To arrange a Pressure Injury RCIP
 - With your questions about the self-paced e-learning module
 - For ongoing support
- Resources from today's webinar will be available on the NYSPFP website
