NYSPFP ADE Webinar

Best Practices for Glycemic Management

March 13, 2020

*A partnership of the Healthcare Association of New
York State and the Greater New York Hospital
Association*

Agenda

Topic	Speaker
Welcome and Introduction	NYSPFP Staff - Lynette Mancuso
Innovations in Inpatient Diabetes Care & Education Part 1	Naina Sinha Gregory, MD Division of Endocrinology, Diabetes & Metabolism
Part 2	Jane Jeffrie Seley, DNP MPH MSN GNP BC-ADM CDE CDTC FADE FAAN Program Manager/Nurse Practitioner Glycemic Management Program <i>New York-Presbyterian/ Weill Cornell Medicine</i>
Q&A Next Steps	NYSPFP Staff - Jon Salman

NYSPFP Adverse Drug Events (ADE) Initiative

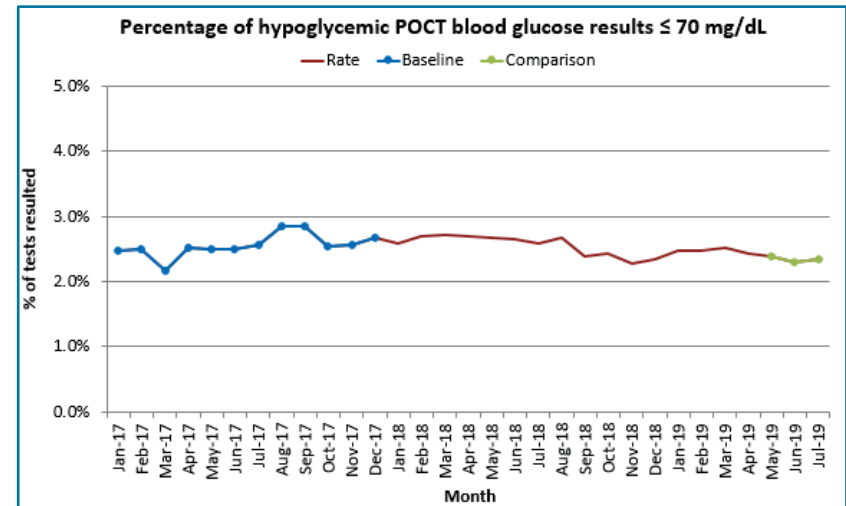

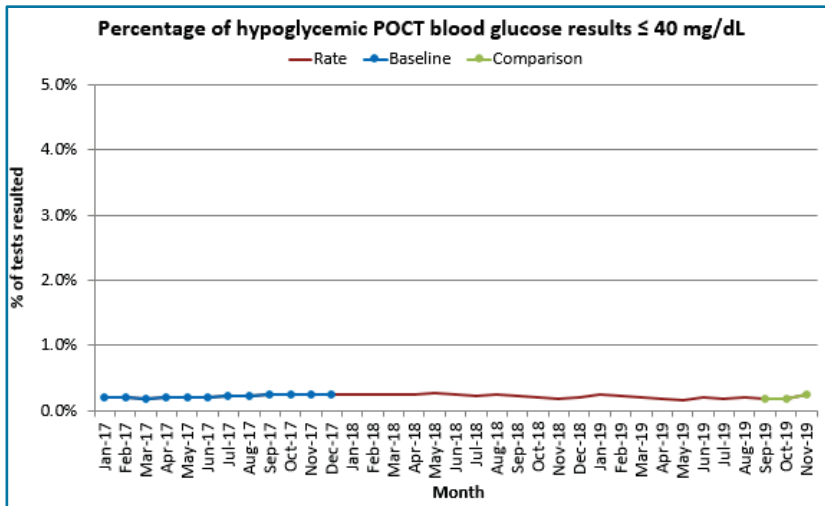

- Purpose
 - To support hospitals' efforts in the implementation of best practices to prevent adverse drug events related to insulin and promote glycemic management
- Goal
 - NYSPFP will work with hospitals to reduce ADEs by 20%

Potential ADEs – Process Measure Reports

Blood Glucose \leq 40 mg/dL

Blood Glucose \leq 70 mg/dL

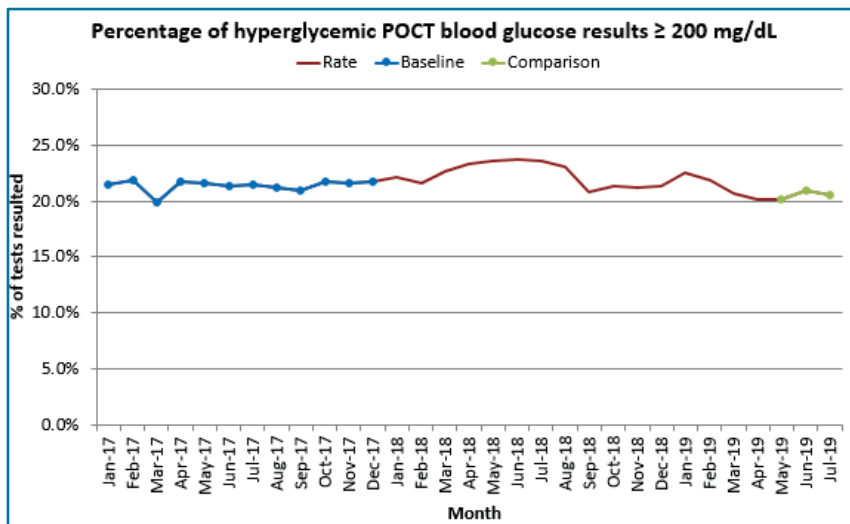

Measure	Baseline	Rate at Baseline	Comparison Period	Rate at Comparison	% Improvement
Blood glucose \leq 40 mg/dL	2017/01-2017/12	0.21	2019/09-2019/11	0.19	↑ 9.09%

Measure	Baseline	Rate at Baseline	Comparison Period	Rate at Comparison	% Improvement
Blood glucose \leq 70 mg/dL	2017/01-2017/12	2.55	2019/05-2019/07	2.34	↑ 8.02%

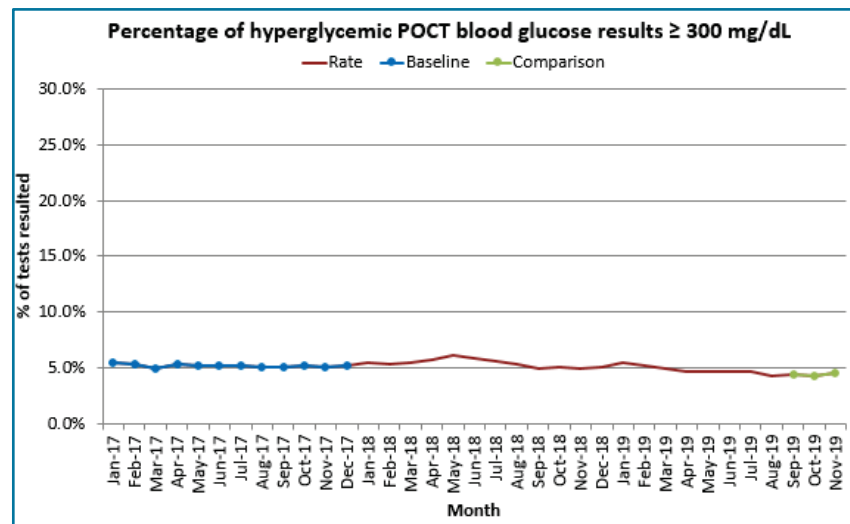

Potential ADEs – Process Measure Reports

Blood Glucose \geq 200 mg/dL

Measure	Baseline	Rate at Baseline	Comparison Period	Rate at Comparison	% Improvement
Blood glucose \geq 200 mg/dL	2017/01-2017/12	21.33	2019/05-2019/07	20.57	↑ 3.58%

Blood Glucose \geq 300 mg/dL

Measure	Baseline	Rate at Baseline	Comparison Period	Rate at Comparison	% Improvement
Blood glucose \geq 300 mg/dL	2017/01-2017/12	5.15	2019/09-2019/11	4.36	↑ 15.32%
