

# Care Partner Program: Reducing Readmission

Amanda Berry BSN, RN Quality Coordinator

Poster presentation prepared for Patient safety: Navigating the new normal, Feb. 7 - 8, 2023

erlanger

Western Carolina Hospital

## Overview/project description

Utilizing the EQIC Care Partners framework, the team developed a new workflow and process to help patients identify and designate a Care Partner upon admission. Process changes included:

- Adding a question to the Initial Interview in the EMR nursing documentation to identify the Care Partner
- Scripting for staff to follow explaining the Care Partner Program and expectations
- Care Partner information brochure included with each admission packet
- Sharing Care Partner information in the daily Interdisciplinary huddle
- Primary Nurses utilizing the Care Partner as the primary source of communication daily for care plan updates, education, and provider communication

## Goals/objectives

1.Reduce Readmission Rates: Decrease to 5%

- Quarter 1 Fiscal Year 23 Readmission Rate was 8.80%. Our goal was to decrease that rate to 5.00%.

2. Patient Satisfaction HCAHPs: improve to the 50<sup>th</sup> percentile rank in identified domains

Q1FY23 percentile ranks:

- Communication with Doctors - 25<sup>th</sup>
- Discharge Information-28<sup>th</sup>
- Care Transitions- 20<sup>th</sup>

3.Care Partner Utilization: 75%

- Once implemented, we had a goal of inpatient admissions who identified a Care Partner of 75%.

## Methods/ measurements

## Results/findings/conclusions

1. Readmission rates decreased to 6.23% , not quite to the goal of 5%, but a decrease of approximately 29% from baseline.
2. Patient Satisfaction scores Q3FY23 :  
Discharge Information met the goal of exceeding 50<sup>th</sup> percentile rank and Care Transitions increased 130% just below the goal rank. Communication with Doctors however, decreased.

1. Communication with Doctors- 20<sup>th</sup>
2. Discharge Information- 77<sup>th</sup>
3. Care Transitions: 46<sup>th</sup>

3. Utilization Rate: Exceeded goal for 2 months! Will increase goal moving forward.  
November- 86.8%  
December- 84.5%
